TERRITOOL

U.S. Patent No. 11,193,776
Granted Dec 2021

Your team will never drive past a deal again.

Run it all from one screen — and see who's actually converting.

Because every rep can now find the lead, reach the decision-maker, and build the route.

Your reps juggle scattered tools — and much of what they do never reaches you.

missed leads. decision-makers out of reach. wasted miles — and none of it on your radar.

YOUR REPS · IN THE FIELD

Find → reach → route — a patchwork of tools, or none at all.

Find — they drive past businesses they never knew were there.

Reach — can't get to the decision-maker (gatekeepers, generic info@).

Route — no optimized plan, so they drive in circles and burn the day.

THE PATCHWORK · PER SEAT/MO

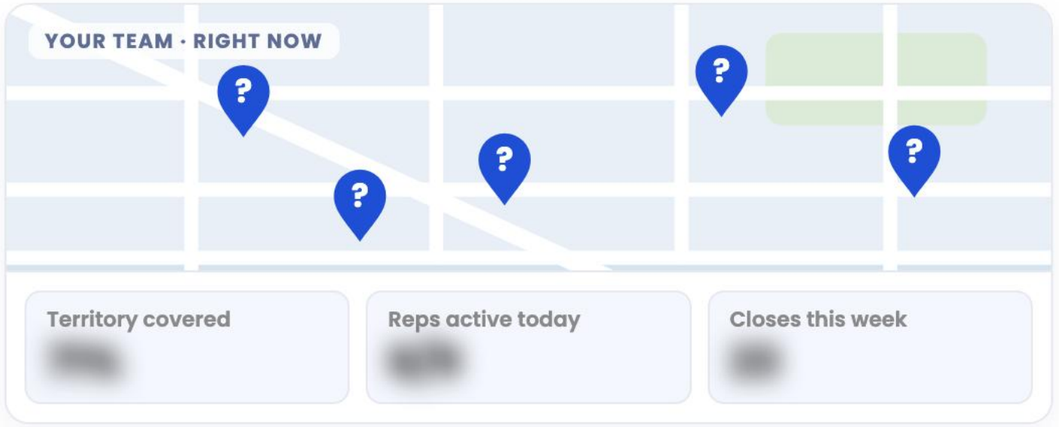

Lead data	~$300
CRM	~$67
Routing app	~$79
per seat / mo	**≈ $446**

...and they still drive past deals.

Only **~30%** of the day is actually selling.
